Council Favors Reduced Sewer Plan For City

The Belle Glade City Commission adopted a resolution calling on the city's engineers to rush to completion plans for only one portion of the city's sewer system instead of city-wide plans as originally ordered.

The council also ordered the post of City Sanitation abridged as of January 1. In other action the council agreed to purchase needed stop signs for the city, enforce existing ordinances dealing with dogs at large in the city, and considered the purchase of a tract of land on which the city's sewer treatment plant might be located.

Figures were not available on the cost of the modified sewer plan, however, the council ordered that the section of the city bounded by Ave. A to E, from Main St. to SW 8th St., be completed before any other portion of the city. The resolution asked that the federal government be contacted in reference to acquiring federal monies promised for a portion of the construction cost. The city wants the work started prior to June 1, 1958.

The resolution abolishing the Board of Sanitation was stated that in the interest of economy and due to the fact that the council felt the job could be handled more efficiently through the Building Inspector, the separate post would be abolished at a saving of approximately \$5,000, City Manager Clarence Robinson said.

The two posts had been combined until 1954, but they were made separate posts at that time.

At the request of the Junior Chamber of Commerce, represented by Robert Mathews, chairman of the Jaycees committee on safety, the city voted to find \$750 by which it would buy 162 needed stop signs.

After hearing from high school principal Frank Robinson that dogs running loose near the school grounds were causing a disturbance and that two

Emmett Roberts Heads State Economy Group Under Action Committee

State Representative Emmett S. Roberts, Belle Glade, has been named chairman of what was termed a legislative action committee of the powerful state legislative committee to determine if the state's economy is being wasted or misapplied.

The membership of the legislative committee includes the state's chief legislative officers and the group sets a pattern for new legislative action.

Roberts will head the group's first meeting Jan. 20 at Tallahassee at which time the committee will probably be selected to assist in the investigations.

In a release from Tallahassee, Roberts said one of the principal functions of the group would be to attempt to secure state legislative action to be carried out in handling appropriations.

The overall purpose will be to serve as a check and balance and provide information for use by the legislative branch in considering budget requests.

BG Migrant Group Reorganizes As Emergency Rises

The critical shortage of work in the Belle Glade area has spawned the reorganization of the Belle Glade Migrant Advisory Committee under the direction of Mrs. Julian Griggs, chairman.

In a letter for distribution in this area, the committee pointed out that an emergency among migrants is becoming evident and that efforts are being made to provide surplus food commodities to help those destitute individuals put out of work by the freeze and rain.

"There is need for stop-gap help especially to workers with families," the letter said.

Any one who has a baby being born, or who is in a needy family with an invalid baby, please phone Julian Griggs, 6-2911 or 6-5144.

The migrant committee is being reactivated under the guidance of the Inter-Racial Council. The committee will function during the interim period to handle the needs other than food which cannot be met by existing agencies.

Clothing needs are being met to some extent, the letter continues, and plans are being made to find temporary job opportunities in the area.

The letter concludes, "How the committee will meet the needs of the LeFris and the LeFris is flooded and sweet corn on the balance has been damaged badly from the high lake level.

The levels of rain in the area, had caused seepage to eliminate crops from part of the LeFris and the LeFris is flooded and sweet corn on the balance has been damaged badly from the high lake level.

Hundreds of the Jaycees, from several clubs in the county, are out to establish a new record for advance ticket sales to the county fair, and enjoin the charity efforts of their respective organizations.

Clubs from West Palm Beach, Palm Beach, Lake Worth, Riviera Beach, Belle Glade and Pahokee have a goal of more than 10,000 admission tickets to the fair which opens January 24 at the new permanent Fairgrounds on State Road 80.

Formation of a "100% County Fair Boosters Club," calling for the purchase of one strip of tickets for each employee in firm, has been announced by Quint Vrooman, chairman of the West Palm Beach ticket drive.

Employees and others purchasing advance tickets will get three admissions for the price of two, the Jaycees pointed out.

With more than 100 acres of land donated by the County Commission, the County Board of Supervisors, the State Road and adjacent land, work is going ahead on establishment of a permanent home for the fair.

Rain Puts Treatment Plant Work Behind By Some 10 or 12 Days

Water Department Superintendent Clarence Throp and City Manager Clarence Robinson both said this week that work on the water treatment plant was about 10 or 12 days behind schedule due to heavy rains.

Throp said there had been no damage from the excessive rains, but workers could not work in the soaked ground. About half of the settling basin had been washed out by the rain and he said workers would get back to work as soon as the weather permitted.

With no rain, he said, workers would pour the walls to the reservoir this week. Approximately 30 tons or 160 yards will be used.

Desk Engineering "Wets" All Lands On Lake Islands

All cattle, except those of Al Kirkham, have been removed from Torry Island. The Stein cattle were moved to other pasture on the mainland and the Lee cattle are being cared for on the Lake Okechobee levee.

The north end of Kraemer Island is inundated and the Raulerson cattle have been moved from the island to the mainland. Corn on the Bradlock land, leased to W. R. Wilson Farms, has been drowned. The heavy rain, a part of the LeFris and the LeFris is flooded and sweet corn on the balance has been damaged badly from the high lake level.

Roy Michaels Is County Commission Chairman For Year

During the reorganization meeting Monday of the Palm Beach County Commission, Roy Michaels, Jr., Lake Worth, District three, was selected to serve as chairman of the board for the coming year.

Michael succeeds Kenneth Foster, West Palm Beach, District Two Commissioner, who was named vice-chairman. As Michael's first official act, appointments to standing committees were named.

Mrs. McClatchey's reasoning zeroed in on the rhyme: Do not roam, but trade at home. You'll find it all worthwhile on that "worthwhile" rhyme, however, the judges thought this worthwhile was the most worthwhile in the worthwhile.

Glades Commissioners, Paul Rardin, Canal Point, was named on the committees for airports, agriculture, parks, personnel, welfare, roads and highways.

Rardin led the way Monday in commending county workers for their work during the year. During his remarks Rardin said the last year was the most outstanding in the history of the county.

The Commissioners were studying the problem of where to store five portable 200-bed hospitals which are being furnished by the federal government.

Ellis Altman, county civil defense director, said the portable units, valued at \$46,000, are being sent here to be used at Belle Glade, Canal Point, Boca Raton, Lake Worth and West Palm Beach.

The Belle Glade Rams' basketball team, coached by John Thomas, will play Tuesday night 50-37 after leading all the way. High scorer for the basketball game was John Thomas who hit 4-11 from the floor and 11 of 16 from the charity stripe for 23 points.

Shackford was high for the losers with nine points. Pakohoke closed the gap in the half against Rams, but serves but the first string Rams returned in time to seal it up.

The Rams lost the B encounter 32-29. Hudspeth of Belle Glade was high for the evening with 16 points.

The Rams basketball squad now stands 1-2 in conference play with a 2-3 season mark exclusive of their 1-1 turnover play. Rams opponents have scored 344 total points in all games played while the Rams have scored 244 points.

Contest Winner Culled From Pile

Once again it's pleasant to note that a great many folks entered "The Herald's BUY-RIME contest this week with presenting the judges with a greater problem than ever.

But, once again, there was one judged best, even though so many were good ones! This week's winner is Mrs. Bill McClatchey, a Belle Glade teacher, who wrote a rhyme within a rhyme as well as striking the proverbial nail on its noggin with good advice to shoppers in the Glades.

Last week's hidden slogan said: "Today's most modern shopping is packaged commodity style."

Mrs. McClatchey's reasoning zeroed in on the rhyme: Do not roam, but trade at home. You'll find it all worthwhile on that "worthwhile" rhyme, however, the judges thought this worthwhile was the most worthwhile in the worthwhile.

Nature Rakes Glades With Adverse Weather Spell

South Florida has come out second best in a three-week battle with Nature and left the economic structure of the Glades reeling, however, reliable sources from all over this area are concluding that the Glades is in far better shape than the rest of the state in any tabulation.

Weather Rains have measured 4.69 since Jan. 1. Temperatures dropped to 60 on Jan. 3 to 31 Thursday morning. Lowest recording was 30.9 at Brown's Farm, highest 35 near the lake. Winds have averaged 25-30 mph with higher gusts.

Outlook is for slowly rising temperatures after today. Low temperatures are expected but no frost or critically low temperatures Saturday.

Engineers Modern discharges will begin down St. Lucie Canal from the lake and Caloosahatchee River discharges will continue at 6,000 cubic feet per second down both outlets, an amount considerably in excess of Caloosahatchee's capacity, U. S. Engineers say.

Labor Every effort is being made to find jobs for agricultural workers. Male Negroes who want to cut cane can report to 527 SW Ave. C. Place at Belle Glade or to loading zone at Pahokee. Workers must be in good physical condition; the work is hard, Florida State Employment Service at Belle Glade reports.

County Agent Palm Beach County Agent M. U. Mount came to the Glades Thursday to "survey what was left of what was damaged by the heavy rain. He said no one can tell what the picture is now. Cattle losses were few, but enough to be concerned about."

Cattle A lack of food will be a critical thing, says county agent. The picture is now. Cattle losses were few, but enough to be concerned about. Cattle will be scarce and prices should rise. Generally, it may be March before pastures are in good condition.

Harvest All commodities are yielding light inferior quality produce. Big reduction in carlot movements noted. One hundred percent of the crop is lost. (Continued on Page Eight)

Cook the modern way! Remember...

WIRE beats FIRE!

Here's why ELECTRIC COOKING beats all other methods:

CLEANEST—No soot or soot curtains, walls, pots and pans... housekeeping is easier.

COOLEST—Half as many heat units are required to do the job. Your kitchen stays cooler, you save on air conditioning—get greater comfort from smaller units at lower installation and operating costs.

SAFEST—No open flames, no fumes, no pilot lights... safe as electric lights.

FASTEST—New super-speed surface units and electronic ovens cook foods in record time.

CHEAPEST—It's cheaper to go all-electric than to use a combination of fuels in your kitchen-laudry.

LIVE BETTER, ELECTRICALLY...see your appliance dealer today!
